## Extended Lifecycle and Revision Control

The Zenith19M-Z04 is anchored on industrial motherboard which has a 7 year lifecycle. The same stability and control processes that customers have come to expect from industrial board line are applied to our industrial PC.

PLUS 億冠國際科技股份有限公司 APLUS TECHNOLOGY INC.

### Performance

The Zenith19M-Z04 integrates Mini ITX motherboard into an optimized metal frame housing behind the LCD panel with optional touch and wrapped in a black glossy front bezel and rear cover. The system design is based on the Intel® GM45 Express Chipset with Socket P support and the Intel® 45nm Mobile Core™ 2 Duo processor up to 1066 MHz FSB for faster data transfer rate. The integrated Intel® Graphics Media Accelerator (GMA) 4500MHD supports Blue-ray, 1080P HD and outstanding 3D graphics performance for content-rich applications. The dual display capabilities are supported via external HDMI, DVI and VGA outputs.

### Ultra-slim design

Unlike most industrial PC units designed for the shop floor, the Zenith19M-Z04 offers a much softer and elegant look suitable for a non-factory environment yet maintains the Core™ features of an industrial/embedded product such as extended lifecycle and revision control. The ultra-slim design is only 7.62 cm thick comparable to typical LCD monitors and the plastic finish sports a high gloss finish.

# Panel PC Customization

Aplus also provides ODM and OEM services for Panel PC Solution. If you are interested in customizing Panel PC System based on our current models, and/or provide us with your specification requirements, please contact us at 886-2-87975223 or aplus@aplustec.com.tw.

Customization based on the existing model will benefit our customers saving time and cost during developing process. If your application requires different level of processing performance or require special I/O interfaces, our local R&D team is able to customize it for you according to your needs. If your application requires different colors or different materials of front and back frame such as white for medical environment or metal frame for factory or industrial automation environment, or ID design and ME team are able to assist with your requests as well.

### Applications and Market Segments

- Point-of-Sale (POS): retail stores and restaurants
- Entertainment machines, Casino Video Slot, Bingo, Lottery
- Digital Signage: supermarkets, wholesale warehouses, department stores and train stations
